

## Transportation COVID Guidelines.

Executive order No. 13998 states that masks are required to be worn on all domestic modes of transportation. This mandate includes both public and private school buses or vans. This order applies to private schools because these are conveyances operated for a non-personal, commercial use vehicle.

This is federal law, we as a school do not reserve the right to modify this order.

### Warrensburg Route

- Masks are required to be worn by all riders while boarding and departing the school van or bus and must remain on for the duration of the transit.

### Extra-curricular or athletic transportation

- Masks are required to be worn by all riders while boarding and departing the school van or bus and must remain on for the duration of the transit.
- If carpooling is the mode of transportation for a sanctioned school or athletic event masks must be worn.
